## FLORIDA HURRICANE.

Much Damage to Property, With Loss of Life.

It is Estimated That Half the Orange Crop Around Tampa and One-Fourth on the East Coast Has Been Cut Off.

Jacksonville, Fla., Sept. 14.—Beginning Friday morning on the east coast and Saturday morning on the west coast, lasting 24 hours, South Florida has been swept by the strongest hurricane known in that part of the state. The wires went down at the beginning and railroad service was delayed. On that account no details reached here until Sunday. Even now they are incomplete.

Jacksonville, Fla., Sept. 15.—The wires south of Palm Beach and Tampa are still down and will not be in operation for a day or two. Further details of the destruction wrought by the hurricane have been received by mail and passengers on incoming trains. The steamer Ingham, of Liverpool, owned by the Ingham Shipping Co., from Galveston, lumber and cotton seed meal, for Hampton Roads, west of Jacksonville, was wrecked on Saturday night. The ship's steering gear broke and she floated at will, striking the beach with great force and breaking into three pieces. The captain, mates and 14 of the crew were saved. Nine were drowned, among them the engineer. The small boat with five men was battered to pieces by the waves and its occupants drowned. The schooner Martha T. Thomas, 750 tons, capt. Watts, cargo of lumber from Apalachicola for Baltimore, was wrecked nine miles south of Jupiter. The schooner is split in half. The crew were all saved.

Grubbers' opera house at Palm Beach was partly unroofed, as were eight other business blocks, which were also damaged in other ways. All the boats on the Lake Worth water front excepting three were wrecked and sunk. Two lives were lost in Tampa by the storm. Louis Harris, a cigarmaker who was struck by the falling cornice of a building, died the next day. T. Y. Hennrich, a motorman, met his death near the Cuesta Rey cigar factory. In Ybor City several factories were badly damaged. The property loss at Tampa will reach \$50,000.

It is estimated that half of the orange crop has been cut off around Tampa and one-fourth of the east coast. There are no wires south of Tampa and trains are delayed. What has happened at Punta Gorda, Punta Rassa and Ybor is not known. It is reported that Punta Rassa has been completely washed away, but no communication with the place has yet been possible.

Owing to the timely warning of the weather bureau all shipping remained in the harbor after Friday morning. It is feared that the schooner Eva J. Shenton, which sailed for New Orleans early Friday, has been lost. Much apprehension is also felt for the steamship Johnstone, which is reported to have sailed from Mobile for Tampa last Friday.

Middle and West Florida are entirely cut off from the outside world. A train which left here Monday morning for River Junction could get no further than Greenville. There is no wire connection beyond Drifton. Both these places are approximately 100 miles west of Jacksonville.

## SUBMARINE VESSELS.

Pretty and Important Exhibition of Mimic Warfare.

The Torpedo Boat Adde Succeeded in Torpedoing the Craven—Navy Test a Complete Success in Every Way.

Newport, R. I., Sept. 16.—A pretty exhibition of mimic warfare, important as illustrating the effectiveness of the navy's submarine craft, was given Tuesday off Brenton's Reef lightship when the submarine torpedo boat Adde succeeded in torpedoing the torpedo boat Craven. So stealthily did the Adde creep upon the Craven that the latter was completely surprised and struck by the Craven's gun. Below the water line amidst the harbor the crew on the floating warship could man the guns or the torpedo tubes.

The sham fight Tuesday was a continuation of the program which was begun some days ago as a test of the submarine boat and was a success in every way as far as the type was concerned. The Craven left the torpedo station during the forenoon and running down the harbor cruised about Brenton's Reef lightship awaiting the attack. The Adde, instead of following immediately waited an hour in order to get the crew of the Craven off their guard. As soon as Fort Adams was cleared the submarine boat plunged beneath the surface and remained for 45 minutes, during which time officers and men enjoyed lunch without inconvenience. On getting outside the harbor the Adde was once more sent to the surface, but only her conning tower was exposed. The Craven was sighted a short distance outside the lightship, riding unconcernedly on an easy swell.

The Adde again plunged and when within 300 yards of the Craven a wooden torpedo in shape and size of a regular projectile was fired. The shot was a good one and the torpedo struck the Craven amidships with considerable force, sufficient to perceptibly jar the boat. The crew of the Craven was unable to reach the guns in time to fire a shot. The Adde then came to the surface and after one or two more dives the two boats returned to the torpedo station.

Omaha, Neb., Sept. 16.—Reports from 50 of the 70 counties in the corn belt of Nebraska, received up to midnight, indicate that frost was general in the state Tuesday night. In many localities it is killing, in others light. Crop bureau estimates place the damage to corn at 25 per cent.

## A GENERAL UPRISING.

An Insurrection in the Vilayet of Salonica.

Alleged That the First Three Divisions of the Bulgarian Army at Philippopolis, Sofia and Silivnac Were Called Out.

Salonica, European Turkey, Sept. 16.—A general insurrection in the vilayet of Salonica, east of the Vardar river, is announced to have begun Monday. The region is divided into eight districts, each commanded by a Bulgarian officer. Gen. Zontcheff, president of the Macedonian committee, is the commander-in-chief. Sofia, Sept. 16.—No important step is likely to be taken at the present critical juncture, pending the return to the capital of Prince Ferdinand and a reply from the powers or some intimation from them in response to Bulgaria's note.

The air here is filled with rumors of mobilization. It is alleged that the first three divisions of the army, having their centers at Sofia, Philippopolis and Silivnac, have been called out. In official quarters, however, it is declared that the only step actually decided upon is the summoning to colors of the first three divisions, who retired from the army during the last three years. This will give a force of some 10,000 men who will be chiefly employed in strengthening the troops along the frontier.

It is expected that a week will suffice to enable the ministry to judge of the extent to which its final appeal to the powers is likely to prove successful. Doubts are expressed in diplomatic circles whether the Bulgarian note will bring any decisive results, but there is every disposition to recognize the sincerity of the ministry's attitude and its complete justification for issuing such a document in view of the immense forces that Turkey is gathering in threatening close proximity to the Bulgarian frontier.

More fighting is reported from the vilayet of Monastir. A large body of troops sent to Pelister mountains to disperse the bandits contained there suffered heavy losses from the Turks. The Turks also lost many men in a fight near the monastery of Kamikia at Ohrida. It is announced that a detachment of Turkish troops, which were sent to Monastir, to seek a headquarters of revolutionaries supposed to be hiding in the building, finding none there, set fire to the monastery and killed the servants and the women.
